

KAUSIK DAS

Web Developer

ABOUT ME

I am a motivated and quick-learning Full Stack Developer with a solid understanding of both front-end and back-end technologies such as React, Node.js, Express, MongoDB, and Php, MySQL. My academic and personal projects have strengthened my ability to design, develop, and deploy complete web applications. I am passionate about writing clean, maintainable code and continuously improving my skills in modern web development frameworks. I'm seeking an opportunity to grow with an organization where I can contribute to building efficient and user-centered software solutions.

EDUCATION AND TRAINING

Konnagar High School | 2016 - 2018

Higher Secondary Education

As a commerce student, strategic planning and financial analysis are key. Just as in business, attention to detail in arguments and research is crucial. Applying these principles boosts your academic and professional success.

Aptech Academy | 2025 - 2026

Web Development

As a full stack developer, I manage both front-end and back-end tasks, creating responsive applications with excellent user experiences and efficient server-side functionality. I enjoy solving complex problems and optimizing performance.

PROJECTS

Personal

E Commerce Website

Developed a fully functional e-commerce website with features like product listing, shopping cart, user authentication, and order management, using PHP, MySQL and Bootstrap.

Personal

Student Management System

Built a student management system with full CRUD functionality and dynamic search using PHP, MySQL and Bootstrap.
